●

F550 is a series of "Tinywhoop" Multicopter frame. It is very suitable for RC beginner although F550 has simple design, with built-in circuit board for ESC power distribution, without need for wiring structure to be your main concern for maintenance. The remaining holes design can fit for different controller board e.g. KK, F4, MK, MWC in the RC market, it can fulfil different kind of your need e.g. FPV.

Please note that the thickness of the 4 motor arms are 1mm, pls use M3x4 screws for motor fixing.
